After registering, you will receive a confirmation email containing information about joining the webinar.

Gulliver (of Gulliver's Travels) was a fictional surgeon. But what, if Gulliver was a Trauma Surgeon. Juan Puyana speculates.

MacGyver, a TV hero known for his innovative and improvisory way of solving problems. Narayan Mayur talks about how this is applied to trauma.

Mark Bowyer, the actor of the ATLS video and the master of simulation, talks about using these aids in trauma training.

Marc De Moya talks about the operative management of a condition usually treated non-operatively.

All world class experts and excellent speakers from the USA.
